

Minimally Invasive Restorative Dentistry

Didactic & Hands-on

+ *Atelier Dental* MADRID

+ Introduction

- + The 'Minimally Invasive Restorative Dentistry' course **consists of 3 days** of in-person training in which a comprehensive but concise didactic program will be imparted and complemented with a variety of hands-on exercises.

+ Course Objectives

- + Review fundamental and advanced concepts in minimally invasive oral rehabilitation.
- + Update concepts and protocols in adhesive and minimally invasive dentistry to optimize planning and execution of rehabilitations for patients with posterior bite collapse.
- + Be familiar with different adhesive restorations and materials: onlays, inlays and prep-less veneers, preparation and cementation protocols involving laboratory production, importance of dental photography and color communication to the technician, and much more...

+ Course Schedule

- + **Diagnosis + Treatment Planning**
May 21, (2025). From 09:30 to 19:00
- + **Rehabilitation of the Posterior Sector**
May 22, (2025). From 09:30 to 19:00
- + **Rehabilitation of the Anterior Sector**
May 23, (2025). From 09:30 to 19:00

+ Day I

Diagnosis + Treatment Planning

A close-up photograph of a person wearing a white lab coat, using a dental probe to examine a dental model. The model shows a set of teeth with some yellow staining. The person's hands are visible, and they are holding the probe with precision. The background is slightly blurred, showing more of the lab coat and the dental model.

+ Day I

Diagnosis + Treatment Planning

- + Rehabilitation of the patient with dental wear: Importance of diagnosis and etiology
- + Posterior bite collapse: Causes and consequences
- + Complex treatment planning concepts: Management of the vertical dimension

Day II

Rehabilitation of the Posterior Sector

+ Module II

Rehabilitation of the Posterior Sector

- + Oral rehabilitation with a minimally invasive approach
- + Fundamental concepts in adhesive dentistry
- + Update on restorative materials
- + Dental preparation: Contemporary concepts + **Hands On**
- + Palatal veneers

Module III

Rehabilitation of the Anterior Sector

+ Module III

Rehabilitation of the Anterior Sector

- + When to indicate prep, no-prep & prep-less veneers?
- + Fabricating no-prep veneers
- + Preparation for veneers in different clinical situations + **Hands On**
- + Complex interdisciplinary therapy
- + Final remarks

A black and white portrait of a middle-aged man with a beard and mustache, wearing a white polo shirt, with his arms crossed. The background is a dark grey with a diagonal light grey stripe.
